

A scatter plot showing the relationship between a Z-score (x-axis) and an unlabeled y-axis variable. The x-axis ranges from -1.5 to 0.5, and the y-axis ranges from 0 to 1.0. Data points are colored by cluster: red, orange, yellow, green, cyan, blue, purple, brown, grey, and pink. The plot shows a general positive correlation, with points clustered along a diagonal trend from the bottom-left to the top-right. There is a notable outlier at approximately (-1.2, 0.1).
